

DEVOURER

A CLASS FOR FIFTH EDITION

*“They turned from the fel fire and looked into the dark between stars.
The void was hungry. So were they.”*

VOIDREAPER · ANNIHILATOR · VOID-SCARRED

THE DEVOURER

There is a road that walks beside death. Most who travel it die. A few become demon hunters — those who consume the fel of their enemies to fight the demons that hunt them. The Devourer is what waits at the end of a different road.

When fel fire was not enough, some among the demon hunters' kind looked away from the burning emerald flame and into the dark between stars. The void answered. It does not care for vengeance — it cares for hunger, and the Devourer was hungrier than any.

A Devourer hunts souls. They carry no patron, no oath, no divine spark. The cosmic dark is not a master but a partner — a quiet engine humming behind their ribs. They strike from middle distance with paired void-touched glaives or scythes, mobile as wind and patient as starlight. They drop falling stars on battlefields and walk through the wounds they make.

CLASS QUICK REFERENCE	
HIT DIE	d10 per Devourer level
PRIMARY STAT	Charisma (the binding of souls)
SAVES	Charisma, Wisdom
ARMOR	Light, medium
WEAPONS	Simple, glaives, halberds, scimitars, shortswords, warglaives, tonfa scythes
SPELLCASTING	Charisma-based half-caster
RESOURCE	Soul Fragments (level + CHA mod cap)

Custom Weapons

The Devourer trains with two exotic weapon forms. Both are martial weapons proficient from the class.

Weapon	Cost	Damage	Weight	Properties
Warglaive	50 gp	1d6 slashing	2 lb	Finesse, light, special
Tonfa Scythe	50 gp	1d6 slashing	2 lb	Finesse, light, special

Warglaive (Special). Once per turn when you attack with a warglaive, you may hurl it 20/60 ft and call it back as part of the same attack. The throw counts as a single attack and the blade returns to your hand regardless of whether it hit.

Tonfa Scythe (Special). When you take the Attack action wielding paired tonfa scythes, you gain **+1 AC** until the start of your next turn from the parrying perpendicular grip.

Bound Pair

Level 1

At the end of a short or long rest, perform a 10-minute ritual to bond up to two melee weapons you are proficient with. While wielding a bound weapon:

- Use **Charisma** in place of Strength or Dexterity for attack and damage rolls.
- The weapon counts as **magical** for overcoming resistance and immunity.
- Summon a bound weapon to your hand as a **bonus action** if on the same plane.
- If you bond two weapons of the same type, you gain **Two-Weapon Fighting** with them — add your ability modifier to off-hand damage.

Void-Touched

Level 1

The cosmic dark has marked you. You gain:

- **Resistance to necrotic damage**
- **Darkvision 60 ft** (or +30 ft if you already have it)
- You learn **Deep Speech**

CLASS FEATURES

Lvl	PB	Features	SF Cap	Spells
1	+2	Bound Pair, Void-Touched	—	—
2	+2	Spellcasting, Soul Fragments, Reap	2+CHA	2/—
3	+2	Hero Path, Void Metamorphosis (3 uses)	3+CHA	3/—
4	+2	ASI	4+CHA	3/—
5	+3	Extra Attack	5+CHA	4/2
6	+3	Voidstride	6+CHA	4/2
7	+3	Hero Path Feature	7+CHA	4/3
8	+3	ASI	8+CHA	4/3
9	+4	Void Sense	9+CHA	4/3/2
10	+4	Collapsing Star	10+CHA	4/3/2
11	+4	Sustained Form	11+CHA	4/3/3
12	+4	ASI	12+CHA	4/3/3
13	+5	Hollow Step	13+CHA	4/3/3/1
14	+5	Glaive Storm	14+CHA	4/3/3/1
15	+5	Hero Path Feature	15+CHA	4/3/3/2
16	+5	ASI	16+CHA	4/3/3/2
17	+6	Greater Metamorphosis (6 uses)	17+CHA	4/3/3/3/1
18	+6	Hero Path Capstone	18+CHA	4/3/3/3/1
19	+6	ASI	19+CHA	4/3/3/3/2
20	+6	The First Devourer (Unlimited)	20+CHA+5	4/3/3/3/2

Spellcasting

Level 2

Your spellcasting ability is **Charisma**. Spell save DC = 8 + proficiency bonus + CHA modifier. Spell attack = proficiency bonus + CHA modifier. You prepare spells equal to your **CHA modifier + half your Devourer level** (rounded down, minimum 1). You may use any bound weapon, an obsidian focus, or a creature trophy as a spellcasting focus.

Soul Fragments

Level 2

Soul Fragments are the principal resource of the Devourer. **Maximum:** Devourer level + CHA modifier. **Starting pool:** 0 at the end of each long rest. The pool fills only through combat.

GENERATING FRAGMENTS

- **+1** when you hit a creature with a bound weapon attack.
- **+1** when a Devourer cantrip hits or deals damage.
- **+2** when any creature within 30 ft drops to 0 HP.
- **+1 extra** when you were the killing blow (kills net +3 total).

Per-round cap: your Charisma modifier from any single triggering event.

Reap

Level 2

As a **bonus action**, while wielding at least one bound weapon, spend **2 Soul Fragments** to make one additional bound weapon attack. On a hit, regain HP equal to **your CHA modifier + half the damage dealt** (rounded down).

Hero Path

Level 3

At 3rd level, choose **Voidreaper**, **Annihilator**, or **Void-Scarred**. Your choice grants features at levels 3, 7, 10, 15, and 18. All three paths receive a variant of **Void Ray** at 3rd level and **Collapsing Star** at 10th.

Void Metamorphosis

Level 3

As a **bonus action**, spend **3 Soul Fragments** to transform. While transformed:

- Flying speed equal to your walking speed (hover).
- Advantage on Intimidation; resistance to psychic damage.
- Bound weapon attacks deal an additional **+1d6 necrotic**.

Devourer Level	Meta Uses per Long Rest
3–5	3
6–11	4
12–16	5
17–19	6
20	Unlimited (The First Devourer)

THE SUSTAIN HOOK

Each time you spend **2+ Soul Fragments** on a class feature while in Metamorphosis, its duration extends by 1 round (maximum 10 rounds at 3rd level; 15 rounds at 11th). When duration expires or you run dry, Metamorphosis ends. Spells and cantrips do *not* count — only class features that explicitly cost Soul Fragments.

Extra Attack

Level 5

You may attack **twice** when you take the Attack action.

Voidstride

Level 6

Once per turn when you move, you may **teleport up to 15 ft** instead. While in Void Metamorphosis, this becomes **30 ft**.

Void Sense

Level 9

You gain **blindsight 10 ft** and can sense the presence of any creature with a soul within **30 ft**, even through walls or magical darkness. You don't know what they are — only that something is there. The first time per long rest you generate a Fragment from a creature first detected this way, gain **+1 extra Fragment**.

Collapsing Star

Level 10

You gain the ability to call down a falling shard of cosmic dark. Cost: **4 Soul Fragments**. Requires Void Metamorphosis active. Lasts as long as Metamorphosis. When Metamorphosis ends, the Star automatically detonates. Does not require concentration. See your Hero Path for the full mechanic and detonation effects.

Sustained Form

Level 11

- Maximum Metamorphosis duration increases to **15 rounds**.
- Gain **temporary HP equal to your Devourer level** at the start of each turn in Meta.
- Extension cost drops: spending **1+ Soul Fragments** now extends Meta by 1 round.

Hollow Step

Level 13

Your Voidstride range increases to **30 ft** once per turn, and the destination may be a space you can't see — provided you can describe it (familiar location, other side of a door, room visited within the last hour). While in Void Metamorphosis, gain **truesight 10 ft**.

Glaive Storm

Level 14

As an **action**, spend **4 Soul Fragments**. Each creature of your choice within 15 ft makes a DEX save or takes **4d8 necrotic** (half on success). For each failed save: regain **1 Soul Fragment** and move one marked/branded creature 5 ft of your choice. Damage increases to 5d8 at L17, 6d8 at L20.

Greater Metamorphosis

Level 17

When you enter Metamorphosis, choose one form:

Ascendant Form — the soul-reaper

- Flying speed +10 ft; +2 Soul Fragments on kills; once per turn impose disadvantage on target's next save.

Devouring Form — the void-belly

- Bound weapon attacks deal +2d8 necrotic (replaces +1d6); regain HP equal to CHA mod when dealing necrotic (once/turn); advantage vs charmed and frightened.

Hollow Form — the unmade

- Resistance to nonmagical B/P/S and one damage type of your choice; use reaction up to CHA mod times to impose disadvantage on attacks against you; advantage on concentration saves.

The First Devourer

Level 20

- Soul Fragments persist between long rests. Maximum cap becomes **level + CHA mod + 5**.
- Enter Void Metamorphosis **once per short rest**.
- While in Meta, no longer need to spend Fragments to extend duration — any class feature used refreshes it to 15 rounds.
- Once per long rest, enter Meta as a **free action** at no SF cost.

FINAL DEVOURING (Once per Long Rest)

When you reduce a creature to 0 HP while in Meta: until end of your next turn, crits on 18–20, all damage rolls deal **maximum damage**, and you take **one additional action** on your next turn.

SPELLCASTING & SPELL LIST

The Devourer spell list leans toward necrotic, cosmic, and mind-warping effects. It trades broad utility for tight mechanical integration with Soul Fragments. *Hex* and *Hunter's Mark* are not on this list — they are replaced in full by **Mark of the Reaper**. Custom class spells are marked with ★.

Cantrips	1st Level	2nd Level
Chill Touch	Bane	★ Drink the Stars
Mind Sliver	Cause Fear	Crown of Madness
Toll the Dead	Dissonant Whispers	Darkness
Sapping Sting	False Life	Hold Person
★ Void Lash	Hellish Rebuke	Mirror Image
★ Soulreader	★ Mark of the Reaper	Misty Step
Spare the Dying	★ Voidstep	Phantasmal Force
Booming Blade	Wrathful Smite	Ray of Enfeeblement
		Wither and Bloom

3rd Level	4th Level	5th Level
Bestow Curse	Banishment	Antilife Shell
★ Cradle of Hollow Stars	Blight	Dawn
Fear	Compulsion	Enervation
Hunger of Hadar	Phantasmal Killer	Hold Monster
Spirit Shroud	Shadow of Moil	Negative Energy Flood
Vampiric Touch	Sickening Radiance	Synaptic Static
Summon Shadowspawn	★ Soul Tether	★ Convergent Veil
	Summon Aberration	

CUSTOM SPELLS

All eight custom spells include a base effect for any Devourer, plus a **Hero Path Variant** that activates automatically if you are on the named path — no extra action required. Variants change how the spell plays, not just how it looks.

★ Void Lash

Evocation cantrip

Casting Time: 1 action · **Range:** 120 ft · **Duration:** Instantaneous

Make a ranged spell attack. On a hit, deal **1d8 necrotic** and ignore half and three-quarters cover. Scales: 2d8 at L5, 3d8 at L11, 4d8 at L17.

Hero Path	Variant Effect
Voidreaper	On a hit, one Voidmarked ally within 30 ft regains HP equal to your CHA modifier.
Annihilator	On a hit, push the target up to 10 ft in any direction.
Void-Scarred	On a hit, target is auto-Voidbranded (passive effects only, no save) until end of their next turn.

★ Soulreader

Divination cantrip

Casting Time: 1 action · **Range:** Self (30-ft radius) · **Duration:** 1 round

Until end of your next turn, know the location of every creature within 30 ft that has a soul. First Fragment generated from a creature first detected this way grants +1 extra.

Hero Path	Variant Effect
Voidreaper	Also sense which detected creatures are below half HP.
Annihilator	Know exact position and facing of all detected; advantage on first attack vs hidden or obscured.
Void-Scarred	Any Voidbranded creature detected auto-fails their next Voidbrand compulsion save this turn.

★ Mark of the Reaper

1st-level necromancy — replaces Hex and Hunter's Mark

Casting Time: 1 bonus action · **Range:** 60 ft · **Duration:** Concentration, 1 minute

Choose one creature. While active: first time per turn you damage it with a weapon attack or class feature, regain **1 Soul Fragment** and deal **+1d4 necrotic**. On the target's death, transfer mark to a new target as a free action (no slot expended).

At Higher Levels: +1d4 necrotic per slot level above 1st.

Hero Path	Variant Effect
Voidreaper	Mark's necrotic rider heals one Voidmarked ally within 60 ft for the same amount.
Annihilator	Damage becomes 1d6 . On the target's death, teleport to their space as a free action.
Void-Scarred	Target is simultaneously Voidbranded (full WIS save). Heal for mark's necrotic each trigger.

★ Voidstep

1st-level conjuration

Casting Time: 1 bonus action · **Range:** Self · **Duration:** Instantaneous

Teleport up to 15 ft to an unoccupied visible space. If you end within 5 ft of a hostile creature, your next attack against it has **advantage**.

At Higher Levels (3rd+): Range becomes 30 ft; advantage applies to all attacks this turn.

Hero Path	Variant Effect
Voidreaper	If you cast Void Ray or use Mend on the same turn, that healing is doubled .
Annihilator	Each creature within 5 ft of your <i>departure point</i> takes 1d8 necrotic (no save).
Void-Scarred	Voidbranded creatures within 10 ft of your landing must save vs frightened until end of their next turn.

★ Drink the Stars

2nd-level evocation

Casting Time: 1 action · **Range:** Self (30-ft radius) · **Duration:** Instantaneous

Choose up to your CHA modifier creatures within 30 ft. Each **ally** chosen regains **2d6 HP**. Each **enemy** chosen makes a CON save or takes **2d6 necrotic** (half on success). Regain 1 SF per enemy that takes damage.

At Higher Levels: +1d6 to both per slot above 2nd.

Hero Path	Variant Effect
Voidreaper	Every ally healed is automatically Voidmarked for 1 minute at no SF cost.
Annihilator	Every enemy that takes damage is pushed 15 ft directly away from you.
Void-Scarred	Every enemy that takes damage is pulled 10 ft toward you and auto-Voidbranded (passive).

★ Cradle of Hollow Stars

3rd-level conjuration

Casting Time: 1 action · **Range:** 60 ft · **Components:** V, S, M (obsidian dust) · **Duration:** Concentration, 1 minute

15-ft radius sphere. Lightly obscured to all but you. Creatures entering or starting turns inside: WIS save or **2d8 psychic** + frightened of you until start of next turn (half damage, no fear on success). Each failed save grants 1 SF. Allies inside gain temp HP = your CHA mod at start of their turns.

Hero Path	Variant Effect
Voidreaper	Allies inside have all Voidmarks refreshed to full duration each turn.
Annihilator	Frightened creatures also have speed reduced to 0 that round.
Void-Scarred	Every enemy failing their save is auto-Voidbranded (full compulsion, no additional save).

★ Soul Tether

4th-level necromancy

Casting Time: 1 action · **Range:** 60 ft · **Duration:** Concentration, 10 minutes

Link two creatures. When one takes damage, half (rounded down) also strikes the other as necrotic. Each senses direction/distance to partner. CHA save at end of each turn to break tether.

At 6th level: Tether up to three in a triangle.

Hero Path	Variant Effect
Voidreaper	If both tethered targets are willing allies, redirect entirely — second creature heals for half the first's damage instead.
Annihilator	+10 ft movement each time a tethered enemy takes damage from your attacks (stacking, up to double speed).
Void-Scarred	Tethered enemy attacks against allies deal only half damage.

★ Convergent Veil

5th-level transmutation

Casting Time: 1 action · **Range:** Self (20-ft radius) · **Duration:** Concentration, 1 minute

Allies within 20 ft gain +1d4 to weapon attack rolls at start of their turns. When an enemy within 20 ft drops to 0 HP, regain 2 SF. Once per turn when you spend SF on a class feature, one ally in the veil regains HP equal to the Fragments spent.

Hero Path	Variant Effect
Voidreaper	Voidmarks cost 0 SF and apply as a free action once per turn.
Annihilator	Blade Dance costs 0 SF and uses full speed instead of half.
Void-Scarred	Voidbranded enemies within 20 ft must reroll attacks vs allies and take the lower result.

HERO PATH I

VOIDREAPER

The Devourer who refused the hollow road. Trained in the star-temples of the Astral Sea, the Voidreaper turns the cutting edge of cosmic dark outward as starlight. The same beam that severs an enemy's soul mends a friend's wound.

The Voidreaper

Most Devourers descend into the void and let it hollow them. Voidreapers learned to do the opposite — taught the second way by an astral mystic of the Stellar Pantheon who pulled them back from the edge of their own soul-hunger. Where they were cuts, what they cut mends.

Voidmark

Level 3

As a **bonus action**, spend 1 **Soul Fragment** to mark an ally within 60 ft. Lasts 1 minute (no concentration). While marked: whenever you deal damage with a bound weapon attack or class feature, the marked ally regains HP equal to your **CHA modifier** (once per source). Max active marks: 2 at L3 | 3 at L7 | 4 at L11 | 5 at L15. At L7+ healing becomes CHA mod + 1/4 Devourer level.

AUTO-MARK TRIGGERS

Void Ray Auto-Mark: When you choose Mend and the healing lands on a target not already Voidmarked, that target is automatically Voidmarked at no Fragment cost (does not count against your max).

Convergent Star Auto-Mark: When you activate Collapsing Star, every ally currently within the 20-ft radius is automatically Voidmarked at no SF cost (does not count against your max).

Void Ray — Beam of Twin Light

Level 3

As an **action**, spend 3 **Soul Fragments** to open a beam of cosmic dark refracted into starlight. No concentration. Lasts up to 3 rounds. On the turn you open it and as an action each subsequent turn, choose:

- **Sever:** One creature within 60 ft, DEX save or **2d8 necrotic** (half on success).
- **Mend:** One creature within 60 ft regains **2d8 HP**.

Scales: 3d8 at L9 · 4d8 at L13 · 5d8 at L17.

Atonement Resonance & Stellar Boon

Level 7

Atonement Resonance: Whenever you spend Soul Fragments on any class feature, each Voidmarked ally regains HP equal to the number of Fragments spent.

Stellar Boon: When you apply a Voidmark, the ally also gains a Stellar Boon — once before it expires, roll a **d4** and add it to one attack, save, or ability check. Reapplying the mark refreshes the Boon.

Collapsing Star — Convergent Star

Level 10

Drop a Convergent Star at a point within 60 ft (**20-ft radius**). Lasts as long as Meta. Does not require concentration. **Each turn:**

- Enemies in radius: CON save or **2d8 necrotic**.
- Allies in radius: regain **2d8 HP** + temp HP equal to your CHA mod.

Detonation (when Meta ends):

- All Voidmarked allies anywhere on same plane regain HP equal to Devourer level + CHA mod.
- Enemies ever in the radius: **4d10 necrotic** (CON save halves; no save if still inside).

Convergence

Level 15

When you reduce a creature to 0 HP, every Voidmarked ally (anywhere, same plane) regains HP equal to **Devourer level + CHA mod**. Regain **1 SF per ally healed** (max CHA mod).

Astral Ascendant

Level 18

While in Void Metamorphosis:

- Allies within 30 ft gain temp HP equal to your CHA modifier at the start of each of their turns.
- Void Ray: choose **both Sever and Mend** each round, targeting different creatures.
- Voidmarks last until your next long rest.
- Convergence triggers when *any* creature drops to 0 HP within 60 ft of you.

HERO PATH II

ANNIHILATOR

Where the Voidreaper bends the void inward to mend, the Annihilator multiplies it outward to break. They looked at “planet-crushing spellcaster” as a job description, not a metaphor.

The Annihilator

An Annihilator is the Devourer who looked at the void and asked what it would do if untethered from mercy. They are mid-range glaive-storms with falling stars at their heels, dropping literal pieces of the cosmic dark on battlefields and walking through the aftermath.

Blade Dance

Level 3

As a **bonus action**, spend 2 **Soul Fragments**: move up to **half your speed** without provoking opportunity attacks and make **one bound weapon attack** against each enemy you move within 5 ft of, up to your CHA modifier targets (min 1). This movement is separate from your normal movement. At L7, Blade Dance attacks count as Extra Attack triggers. Max targets: CHA mod + 1 at L11, CHA mod + 2 at L15.

Void Ray — Sweeping Beam

Level 3

As an **action**, spend 3 **Soul Fragments** to open a beam in a **60-ft line, 5 ft wide** from you. No concentration. Lasts up to 3 rounds. Each round, creatures in the line make a DEX save or take **2d8 necrotic** (half on success). Each subsequent round, pivot the line to a new angle. Scales: 3d8 at L9 · 4d8 at L13 · 5d8 at L17.

Eye of Annihilation & Predator's Cadence

Level 7

Eye of Annihilation: On a crit with a bound weapon or class feature, gain **+1 SF** and extend Meta duration by 1 round (if active).

Predator's Cadence: When you reduce a creature to 0 HP with a weapon attack or Blade Dance, your speed increases by 15 ft until end of your next turn and you may use Voidstride as a free action as part of that movement.

Collapsing Star — Devouring Star

Level 10

Drop a Devouring Star at a point within 60 ft (**20-ft radius**). Lasts as long as Meta. Does not require concentration. **Each turn:**

- All enemies within 30 ft are pulled **10 ft toward the Star** (no save).
- Enemies in 20-ft radius: CON save or **3d8 necrotic** (half on success).

Detonation:

- All enemies within 30 ft: **6d10 necrotic** (CON save halves).
- Enemies still inside the 20-ft radius: no save.

Endless Hunger

Level 15

When you reduce a creature to 0 HP, immediately make **one bound weapon attack** against a creature within 5 ft, or trigger one round of **Blade Dance at no SF cost**. Each enemy can trigger this only once per turn.

Cataclysm Embodied

Level 18

While in Void Metamorphosis:

- Bound weapon attacks deal +2d6 necrotic (replaces +1d6 base Meta).
- Use Blade Dance as part of the Attack action once per turn (not just bonus action).
- When you detonate a Devouring Star by ending Meta, spend 3 SF to immediately re-enter Meta on the same turn. Normal once-per-rest restriction does not apply to this re-entry.

HERO PATH III

VOID-SCARRED

Where the Annihilator throws the void outward, the Void-Scarred swallows it. Their flesh hardens with cosmic scars — wounds that never closed but hum with stored void-pressure. They learned that pain is just unspent power.

The Void-Scarred

A Void-Scarred is a Devourer who stood at the edge of the abyss, looked back, and decided to be the wall between it and everyone else. They demand attention from anything that walks the battlefield with them, and the battlefield obeys.

Voidbrand

Level 3

As a **bonus action**, spend **1 Soul Fragment** to brand a creature within 60 ft. The brand lands without a saving throw. The target then makes a **WIS save** (DC = spell save DC). Lasts 1 minute (no concentration).

Always-on (regardless of save):

- You know the creature's exact location while on the same plane.
- If it ends its turn more than 30 ft from you, it takes necrotic = your CHA modifier.

On a failed save:

- Disadvantage on attack rolls against creatures other than you.
- If it doesn't include you as a target of at least one attack on its turn, it takes 2d6 psychic at end of that turn.

Max active brands: 1 at L3 · 2 at L7 · 3 at L15.

Void Ray — Bulwark Beam

Level 3

As an **action**, spend **3 Soul Fragments** to project a beam in a **30-ft cone**. No concentration. Lasts up to 3 rounds. Each round:

- Creatures in cone: CON save or **2d8 necrotic**.
- While channeling: **resistance to all damage** and gain temp HP = CHA mod + Devourer level each turn.
- Any creature damaged by the beam is auto-Voidbranded (passive effects only, no SF cost).

Scales: 3d8 at L9 · 4d8 at L13 · 5d8 at L17.

Scarred Flesh & Demanding Presence

Level 7

Scarred Flesh: When you take damage, gain **1 SF per 10 damage** (rounded down), up to your CHA modifier per turn.

Demanding Presence: Voidbranded creatures treat the area within 5 ft of you as difficult terrain when moving away. When a branded creature drops an ally to 0 HP, use your **reaction** to teleport up to 30 ft adjacent to that creature and force a WIS save or it is **stunned until end of its next turn**.

Collapsing Star — Sentinel Star

Level 10

Drop a Sentinel Star that **anchors to you** and moves with you (always within 5 ft). 15-ft radius sphere. Lasts as long as Meta. Does not require concentration. While active:

- All enemies within 30 ft are auto-Voidbranded (passive effects only).
- **Resistance to all damage** while within 5 ft (always).
- Enemies in 15-ft radius: CON save or 2d8 necrotic + pulled 5 ft toward you (no save on pull).

Detonation:

- Enemies within 30 ft: WIS save or **stunned** until end of next turn.
- Enemies in 15-ft radius: **5d10 necrotic** (CON save halves).
- You regain HP equal to **half the total damage dealt** (max: Devourer level × 5).

Soul-Hardened

Level 15

- HP maximum **increases by your Devourer level** (retroactive and scales with future levels).
- **+1 AC** while wearing medium or no armor.
- Once per long rest, when you would drop to 0 HP while in Meta, drop to **1 HP** instead, end Meta, and trigger any active Sentinel Star detonation.

Wall of the Void

Level 18

While in Void Metamorphosis:

- You and all allies within 10 ft have **resistance to all damage except force and radiant**.
- Voidbrand requires **no saving throw** — failed-save effects apply automatically.
- When you take damage from a Voidbranded creature, gain **2 Soul Fragments** (stacks with Scarred Flesh).
- Once per turn, when an enemy within 30 ft hits an ally, use your **reaction** to force the attacker to reroll the attack against you using the same modifiers.

FEATS

Ten feats are available to Devourers: four class feats open to any path, and two subclass-specific feats per Hero Path. Half-feats grant a +1 ability score increase in addition to their features.

Class Feats

Starborne Instinct

Half-feat · Prerequisite: Devourer

The void doesn't wait for you to remember it's there.

- **+1 Charisma** (max 20)
- On initiative roll, immediately gain **Soul Fragments equal to your proficiency bonus**.
- Once per short rest, when a creature you can see hits you, use your **reaction** to enter Void Metamorphosis (requires 3+ SF and available uses). Meta activates after the hit resolves.

Hollow Vessel

Prerequisite: Devourer, 4th level

The void doesn't just fill you. It expands you.

- Your **Soul Fragment maximum increases by your proficiency bonus**.
- When you start your turn at your SF maximum, gain **temp HP = twice your CHA modifier**.
- When extending Void Metamorphosis, spend **1 additional SF** to extend by **2 rounds** instead of 1.

Fracture Point

Prerequisite: Devourer

The void leaks out of the places you were broken.

- On a **critical hit** with a bound weapon: target takes bonus necrotic = **2 × CHA mod**, must CON save (DC = spell save DC) or lose reaction until end of next turn, and you gain +1 SF.
- When a creature **critically hits you**, use reaction to spend 2 SF and make one bound weapon attack against them.

Resonant Void

Prerequisite: Devourer, 2nd level

Casting and harvesting are the same motion now.

- Casting a Devourer spell using a slot generates **1 Soul Fragment**.
- Your Devourer spells and class features that deal necrotic damage **ignore necrotic resistance** (not immunity).
- Once per turn when you use **Sever** on Void Ray, push the target up to 10 ft instead of damage, or deal damage **and** push 5 ft.

Voidreaper Feats

Stellar Conduit

Prerequisite: Devourer, Voidreaper Hero Path

You have become a living relay between the cosmic dark and the people you have chosen to keep.

When you apply a Voidmark, choose its mode:

- **Harvest Mode** (standard): heals the marked ally when you deal damage.

- **Shield Mode** (new): heals the marked ally when *they* take damage from any source.
- Once per short rest, when a Voidmarked ally drops to **0 HP**, use your reaction, spend 3 SF — they drop to **1 HP instead**. Their Voidmark ends.

Twin Light Mastery

Prerequisite: Devourer, Voidreaper Hero Path, 7th level

You no longer choose between the cutting edge and the mending light.

- When channeling Void Ray, choose **both Sever and Mend** in the same round, targeting different creatures. (Brings the L18 Astral Ascendant Void Ray upgrade forward.)
- When you choose **Mend** on Void Ray, also **remove one condition** (frightened, poisoned, or blinded) from the target.

Annihilator Feats

Cosmic Predator

Half-feat · Prerequisite: Devourer, Annihilator Hero Path

You don't move through the battlefield. You hunt it.

- **+1 Dexterity or Charisma** (max 20)
- **Blade Dance** generates **1 SF per creature hit** during the movement.
- When **Predator's Cadence** triggers, use **Voidstride as a free action** as part of that movement.

Gravity Architect

Prerequisite: Devourer, Annihilator Hero Path, 10th level

The Devouring Star isn't a tool. It's a law.

- Devouring Star **pull radius** increases from 30 ft to **45 ft**.
- Enemies pulled can be dragged through other creatures' spaces, stopping only at solid walls.
- When you voluntarily end Meta to detonate, you may **delay detonation 1 round**. If you do: +3d10 detonation damage and enemies that would escape are **restrained until detonation**.

Void-Scarred Feats

Scar Resonance

Half-feat · Prerequisite: Devourer, Void-Scarred Hero Path

The pain has always been data. You finally know how to read it.

- **+1 Constitution** (max 20)
- **Scarred Flesh** per-turn cap increases from CHA mod to **CHA mod + proficiency bonus**.
- When you **enter Void Metamorphosis**, damage taken since start of your last turn retroactively triggers Scarred Flesh — fragments calculated and added immediately on entry.

Brand of Dominion

Prerequisite: Devourer, Void-Scarred Hero Path

Some things should not be allowed to look away.

- **Voidbrand affects creatures immune to the frightened condition**. The compulsion comes from the void, not fear. WIS save still applies.

-
- When a Voidbranded creature **succeeds** on their end-of-turn save to break the brand, spend **2 SF** to immediately re-apply it as a free action.
 - Passive damage for branded creatures ending their turn more than 30 ft from you increases from CHA mod to **CHA mod + proficiency bonus**.

MAGIC ITEMS

All Devourer magic items interact directly with class mechanics — Soul Fragments, Void Metamorphosis, Voidmark, Voidbrand, Blade Dance. They are designed to extend the class fantasy, not replace it.

Warglaives

Sunder & Claim

Legendary Warglaives (paired) — Attunement: Devourer

“Two blades made from opposite ends of the same thing. Nobody agrees what that thing was. They have not been separated since they were made.”

Both are +2 **magical weapons**. While holding both, bound weapon attacks deal necrotic = CHA mod to any creature whose space you pass through via teleport or movement.

Sunder

- On a hit, **pull the target 10 ft** (no save). If already within 5 ft, deal +1d8 necrotic instead.
- Once per turn on a hit, spend 1 SF: target cannot move away from you until start of your next turn.

Claim

- On a hit, regain 1 **Soul Fragment** in addition to normal generation.
- When any creature within 30 ft drops to 0 HP, pull 1 **additional SF** from the dying soul — even off a kill you didn’t land.

The Riven Resonance: While both are your Bound Pair and you’re in Meta, Blade Dance pulls every creature you pass within 5 ft by 15 ft **toward the nearest point**.

Memento & Mori

Very Rare Warglaives (paired) — Attunement: Devourer (Void-Scarred)

“Memento is the wound. Mori is what comes after. The smith didn't survive the job. The blades did.”

Both are +2 **magical weapons**.

Memento

- When you apply a Voidbrand to a creature within 5 ft, **no saving throw required**.
- Branded creatures take **CHA mod necrotic at the start of each of their turns** (not just when fleeing).

Mori

- When any creature drops to 0 HP within 30 ft, use your **reaction** to swing Mori: all branded creatures within 30 ft take **2d8 psychic**.
- Once per short rest, when you would drop to 0 HP: drop to 1 instead, branded creatures within 30 ft take **4d10 necrotic**, and Sentinel Star detonates if active.

Wall Inscription: While holding both, gain +2 **AC**.

Starfall Glaives

Rare Warglaives (paired) — Attunement: Devourer

“The metal still falls, slightly, if you hold it loose. It wants to keep going down.”

Both are +1 **magical weapons**.

- When you throw a Starfall Glaive (Special property), target takes +2d6 **force** and is **knocked prone**.
- When the blade returns, generate 1 **Soul Fragment**.

- Once per long rest, throw both simultaneously as a single action: arc in opposing paths at **up to two targets within 60 ft.** Both return.

Tonfa Scythes

Aphelion & Perihelion

Very Rare Tonfa Scythes (paired) — Attunement: Devourer (Voidreaper)

“These are Nyxbloom’s. What they are to someone else is a set of powerful blades. What they are to her is the only thing she made with her hands after the fall.”

Both are **+2 magical weapons**. Forged from cooled astral material — obsidian-black with nebulae visible within the metal.

Aphelion (the point farthest from the source)

- Attacks have **10-ft reach** via void energy extension.
- When you choose Sever on Void Ray, channel through Aphelion: +1d8 damage and the beam bends around total cover.
- On a hit, target has **disadvantage on next save** vs a Devourer feature or spell before end of your next turn.

Perihelion (the point closest)

- When you **Reap** with Perihelion, heal **+1d6 HP** extra.
- When you choose Mend on Void Ray, one additional Voidmarked ally within 60 ft regains HP = CHA mod.
- Generates **+1 SF** on a kill.

Fallen Harmony: While both are your Bound Pair and you’re in Meta, all Voidmarks pulse at the start of each of your turns — each marked ally heals CHA mod without requiring you to deal damage.

The Hollowed Edge

Rare Tonfa Scythe (single) — Attunement: Devourer

“It came back lighter. And hungrier.”

+1 magical weapon. Absorbs light slightly — a fraction of a dimple in every room.

- Deals **+1d4 necrotic** on every hit.
- When you deal damage to a creature with **50 HP or fewer**, generate **+1 SF**.
- Once per short rest on a hit, choose no damage. Target makes a CON save (DC = spell save DC) or loses **1d4 of their highest available spell slots**, taking necrotic = slot level × 5.

Armor

Voidwalker’s Carapace

Very Rare Medium Armor (chain shirt) — Attunement: Devourer

“The plates formed over decades around a Devourer who simply refused to stop moving.”

AC 14 + DEX mod (max 2).

- Void Metamorphosis grants **+1 AC** while active.
- Resistance to psychic damage **at all times**.
- Voidstride range increases by **15 ft**.
- Once per short rest, use reaction to **negate all forced movement** affecting you.

Fractured Mantle

Rare Medium Armor (studded leather) — Attunement: Devourer

“Whatever broke it got exactly one hit.”

AC 12 + DEX mod (max 2).

- When you take damage from a melee attack, gain **1 SF** (once per turn).
- Advantage on death saving throws while in Meta.
- Once per long rest, when damage would drop you to 0 HP: drop to **1 HP** and gain SF = proficiency bonus.

Wondrous Items

Obsidian Resonance Focus

Uncommon Wondrous (neck) — Attunement: Devourer

- Casting a Devourer spell using a slot generates **1 SF**.
- Spell save DC **+1**.
- Once per long rest, cast Mark of the Reaper at no spell slot cost.

Shard of the Riven Sky

Rare Wondrous (neck) — Attunement: Voidreaper

“A fragment of something that used to be a ceiling.”

- Voidmarks heal for **+1d4 HP** per trigger.
- Once per short rest, apply a Voidmark to **two allies simultaneously** as the same bonus action (counts as one use toward your maximum).
- On Convergent Star detonation, each Voidmarked ally heals **+2d8 HP**.

Brand of Eternity

Rare Wondrous (ring) — Attunement: Void-Scarred

- Voidbrand passive range increases from 30 ft to **60 ft**.
- When a branded creature attacks an ally, use reaction to impose **disadvantage** on that attack.
- Once per long rest, cast **Compulsion** (no slot, no concentration) targeting only Voidbranded creatures.

Stardust Wraps

Rare Wondrous (hands) — Attunement: Annihilator

- Blade Dance movement is **separate from your regular speed** (both pools fully independent).
- Creatures hit during Blade Dance: DEX save or **speed reduced to 0** until end of their next turn.
- Your Blade Dance trail counts as **difficult terrain** for enemies until start of your next turn.

Consumables

Crystallized Soul Fragment

Uncommon Consumable — Any Devourer

As a **bonus action**, crush the crystal: gain **SF equal to your proficiency bonus**.

- If at SF maximum when consumed, excess converts to **temp HP = twice the excess**.

Found as loot in high-death areas; ~200 gp in arcane markets.

Void Draught

Rare Consumable — Any Devourer

“Tastes like cold air at altitude. Smells like something just ended.”

As a **bonus action**, drink. For 10 minutes:

- SF cap +CHA modifier.
- Every SF source generates **+1 extra Fragment**.
- Roll d6 at the start of each of your turns: on a 5 or 6, regain one Meta use.

At the end of the duration, gain **1 level of exhaustion**.

QUICK REFERENCE

SOUL FRAGMENTS

Maximum: Devourer level + CHA modifier (L20: +5 extra)

Start each long rest: 0 Fragments

Bound weapon hit: +1 · **Cantrip hit:** +1 · **Any creature drops within 30 ft:** +2

You deal the killing blow within 30 ft: +3 total · **Per-round cap:** CHA modifier per event

Level	Uses per Long Rest	Base Duration	Max Duration	Extension Cost
3–5	3	3 rounds	10 rounds	2+ SF = +1 round
6–11	4	3 rounds	10 rounds	2+ SF = +1 round
11+	—	3 rounds	15 rounds	1+ SF = +1 round (Sustained Form)
12–16	5	3 rounds	15 rounds	1+ SF = +1 round
17–19	6	3 rounds	15 rounds	1+ SF = +1 round
20	Unlimited	3 rounds	15 rounds	Any feature use resets to 15

Hero Path	Star Name	Active Effect	Detonation
Voidreaper	Convergent Star	Pulse 2d8 dmg / 2d8 heal + temp HP to allies	Mass-heal Voidmarked; 4d10 to enemies
Annihilator	Devouring Star	Pull 10 ft inward; 3d8 to enemies inside	6d10 in 30 ft; no save inside radius
Void-Scarred	Sentinel Star	Anchors to you; brands nearby; 2d8 + pull in	Stun 30 ft; 5d10 in 15 ft; self-heal

Hero Path	Shape	Effect per Round
Voidreaper	60-ft single target	Sever (2d8 necrotic, DEX save) OR Mend (2d8 healing)
Annihilator	60-ft line, pivots each round	DEX save or 2d8 necrotic to all in line
Void-Scarred	30-ft cone	CON save or 2d8 necrotic + resistance to all dmg + auto-Voidbrand

*“You do not master the void. The void does not master you.
You walk together. Neither of you is full.”*
